Chris,

I just wanted to write a quick note to you to let you know how pleased Mike, Chris and I are with the video work you did for us.

Your ability to create a video that visually worked with the videos already created on our site was a huge plus. Your team had great insight and ideas and you made us feel like you were part of our team.

Another bonus obviously was how cost competitive you folks were considering the high quality production cameras and post production facilities you use.

I would ambitiously recommend you to anyone who is in need of video/film services and looking for first class work and service at unbelievably reasonable pricing.

Please feel free to share this letter as an enthusiastic endorsement from RCS. We look forward to working with you guys again soon.

Thanks again!
